

Shields Buildings Newsletter Spring 2018

Winter is finally over!

Hopefully we are now just starting to emerge in to the Spring after a long late Winter. Luckily, we were warm and snug in our new Sales Office, so could work away happily no matter what the weather threw at us.

All that time hasn't been wasted either, our bespoke, insulated, vaulted ceiling

Sales Office gives the team at Shields Buildings a super creative workspace. This is great for our designs and also for working on things like our new Website – which I hope you like! Take a look at it; www.shieldsbuildings.co.uk – it's full of our latest products and information and will give you a great feel for what we can do for you.

You will see our product offering clearly listed under the following headings:

Car Parking Shelters; Bespoke Garages and Timber Frame Carports

Lifestyle Timber Buildings; Timber Studios, Timber Offices and Summerhouses

Timber Garden Buildings; Bespoke Timber Sheds and Timber Workshop Buildings

Bespoke Combination Buildings; as all our buildings are bespoke you can have a building that suits you, in the size that you want and any combination of products such as a studio/store which is part insulated and part non insulated, or a garage/workshop combination.

New brochure!

Call us now for a copy of our new 34 page colour brochure. You'll love it, it's full of new photos showing how some of our customers are using their buildings. It will give you ideas for your own building, or you may like to come up with your own suggestions. Just come along and chat them through with one of the team.

Customers often find they go home buzzing with ideas and enthusiasm when they leave here!

Planning Advice

There are lots of questions around Planning Permission, such as 'When does a timber building need planning permission?' Based on our wide experience we can help and guide you on this and make an application on your behalf, saving you the time and stress of doing it yourself. Ask our experts for help and advice

We've got some great new display buildings for you to see

We have also been busy with some new Display Buildings – the latest two buildings that we have put up on display are the Artists Studio and Summerhouse, both of which have proved to be very popular with our customers.

The Studio is a contemporary style building with lovely anthracite grey full height windows and sliding door. It shows off the lower height apex roof beautifully and helps customers to see how light and airy a building like this is. We try and show different features on the various display buildings, so you really can get a good idea of what's possible and being able to stand in a building does help you decide what's right for you.

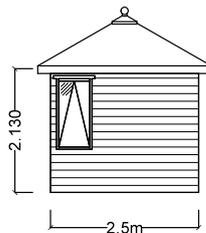

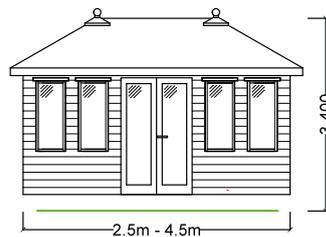

The other new building, the Salcombe Summerhouse, is a great example of a cozy garden room. The roof is an attractive pyramid shape cedar roof and the interior has a pine tongue and groove lining. The Salcombe comes in a range of 3 sizes.

If there are planning constraints and you need to keep the height to below 2.5m the Sidmouth Summerhouse would be the best option for you which comes with a pent roof. This is again lined with wood and comes in 3 sizes.

What are you waiting for, come and take a look and have a sit in the Salcombe and enjoy the view.

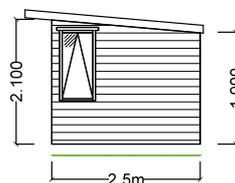

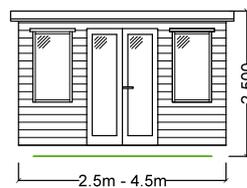

The Salcombe Summerhouse

The Sidmouth Summerhouse

Maximum height 2.5m above ground

SPRING OFFER

Place your Order for a Salcombe or Sidmouth Summerhouse by Friday 25 May and we will give you a massive **25% Discount** on the Pine Tongue and Groove Lining for the interior. Don't miss out, give us a call TODAY to discuss your requirements!

Come and visit

We have continued with the monthly **Open Saturdays** that we started last year as the feedback has been so positive. We have found customers really appreciate being able to come here at a weekend knowing the staff are on site to help and advise them.

We are open during the week and the display is open for viewing 7 days a week. If you do want to meet us at the weekend and it isn't Open Saturday then please do give us a ring and make an appointment, otherwise you are more than welcome to browse at your leisure anytime.

Directions

Please note that your sat nav may not bring you to the door. From the A30 at Whiddon Down we are 5 miles north on the A3124. Pass under the brown steel railway bridge and you will find us 300m up the hill on the left. The entrance is clearly signed.

From the A3072 turn down the hill towards Whiddon Down at de Bathe Cross and we are 200m on the right.
